

New seam finish designed for TOLI NW series (vinyl sheet),  
which surpasses existing heat-welding.

# TOLI JOINT SHIELD

Available for TOLI NW series (vinyl sheet):

◎ NONWAXLEUM NW

◎ HOSPILEUM NW

◎ SF FLOOR NW

◎ MATURE NW

## Seam joints are least visible.

The seam joints of a vinyl sheet are least visible. This is why the floor image will not be split apart by the joints.

## Dirt will not be easily stuck on the joints.

Dirt and stains will not be easily stuck on the joints. Beautiful appearance of the floor can be maintained.

## Assured strength and durability

Strength and durability are as good as welding rods.

## Simple installation

Simple and easy-to-follow installation by taking 4 steps.

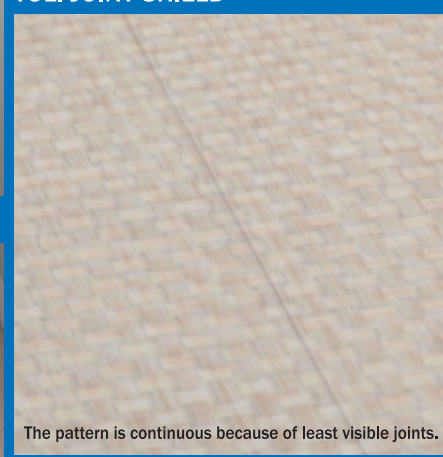

welding rod

The pattern is split apart by visible joints.

TOLI JOINT SHIELD

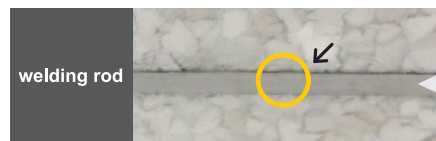

The pattern is continuous because of least visible joints.

POINT

2

Dirt will not be easily stuck on the joints.

seam finish

evaluation

Dirt and stains might be stuck on the slight level difference between the vinyl sheet and the welding rod.

Almost no level difference will be caused on the joint. Dirt and stains will not be easily stuck so that beautiful appearance can be maintained.

Tested floor covering is NONWAXLEUM NW. Only the daily maintenance was proceeded without applying the wax on the surface.

POINT

3

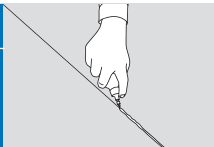

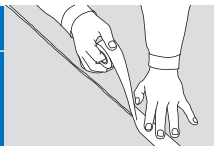

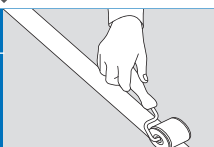

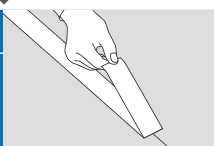

Strength and durability are as good as welding rods.

test item	TOLI JOINT SHIELD	welding rod	evaluation
floor covering	HOSPILEUM NW		—
strength	120N	120N	TOLI JOINT SHIELD has the same strength as welding rod.
durability	Nothing abnormal detected after 180 minutes passed.		The required endurance time to dynamic loads is 180 minutes. Therefore this result can be judged as sufficiently durable.

POINT

4

Simple installation by taking 4 steps.

Step 1	
Step 2	
Step 3	
Step 4	
COMPLETED	

For more information about the installation, please contact TOLI sales rep.
