

# PIESTA

category: vinyl composition tile

PIESTA is a natural-look VCT with beautiful ceramic images. With its 4 different sizes, various floor designs can be created by many different combinations.

Specification	overall thickness	3.0mm	size	(1) 600mm x 600mm (2) 450mm x 450mm (3) 300mm x 450mm (4) 100mm x 450mm
	others	Curved-Beveled		
Packing	(1) 8pcs/box=2.88m <sup>2</sup> , (2) 14pcs/box=2.83m <sup>2</sup> , (3) 20pcs/box=2.70m <sup>2</sup> , (4) 60pcs/box=2.70m <sup>2</sup>			
Net Weight	(1) 20.7kg/box, (2) 18.7kg/box, (3) 16.6kg/box, (4) 16.6kg/box			
Recommended Adhesive from TOLI	dried mortar and concrete	Eco AR600		
	humid mortar and concrete	Epo Gray P, US Cement, US Cement (less-smelly), US200		
Notes on Installation	◆Please choose divider strips designed for 2.0mm thickness tiles to match the beveled joints. ◆Before installation, make sure the arrow marks on the back of each tile, which show the direction of the pattern. ◆For one week after installation, direct sunlight, sudden change of temperature due to air conditioning, and water washing should be avoided. ◆The color shading differs on a tile-by-tile basis, which will make the floor look very natural when the tiles are installed.			
Recommended Maintenance Wax from TOLI	New FB Wax, U Wax, T Wax (Non-shiny & Antibacterial)			
Others	◆When you install PIESTA, beveled sides should be faced each other. In case you cut the tiles, do not face cut sides to beveled sides. Otherwise cut sides will be damaged or dented due to partial load caused by wheels etc. ◆Beveled part sometimes gets bleached. This will be recovered by applying the wax. ◆The dirt and stains will be more visible on the floor covering with lighter plain colors, compared to dark colors. Also they are more likely to stick with the deep-embossed surface than the flat surface. ◆Please be aware that some rubber casters might cause color-contamination. ◆Please note that the product has the indigenous odor from its materials.			

MADE IN JAPAN

Vinyl Soil

"Vinyl Soil" (artificial soil in TOLI's product design concept) is a flexible material to describe natural textures. Just like you freely paint a picture, any color and texture can be portrayed by "Vinyl Soil".

When you apply T-WAX (Non-shiny and Antibacterial), the floor can be finished with a less-glossy natural feeling.

T WAX(Non-shiny&Antibacterial)

## 1. CURVED BEVELING

After installation, curved beveling will make the joints look very beautiful, which can provide the authentic floor image of ceramic tiles.

## 2. NATURAL GRADATION

Even within one same color number, color shading differs on a tile-by-tile basis. Because of that, PIESTA can convey the natural feeling.

## 3. COMBINATION OF 4 SIZES

By combination of 4 different sizes, variety floor images can be created.
