Recommended Adhesive from TOLI	TOLI ECO GA Cement		(required quantity)		for steel or plastic sub-floor		40 to 60 gram/m ²	
					for mortar and wood sub-floor		60 to 100 gram/m ²	
Notes on Installation	Apply the adhesive on the whole surface of the sub-floor thinly and evenly. After drying, when the adhesive becomes translucent, install the tiles. Be careful not to put the tiles too tightly.							
Others	♦The stripes differ in position on a tile-by-tile basis so that they will not be exactly connected between the tiles (please refer to the installation image). ♦To have a natural image after installation, stripes are intentionally inserted in the design at regular intervals, which is not a manufacturing defect. In case you do not feel comfortable about the floor after installation, please change the tiles partly so that it will look natural. ♦Please note that the product has the indigenous odor from its materials.							
Custom Order	All the standard colors of GA-100W can be made with Nano Clean finish (patent-obtained special stain release) on a made-to-order basis. For more information, please contact TOLI sales reps.
